

THE ROAD TO BEIJING

The road to Beijing is paved with FUN, FUN, FUN!!! This summer Montessori Community School summer campers will fly across the world and visit many countries and participate in a variety of Olympic sports to culminate in our own exciting Olympic games celebration. We'll kick off the summer with an Olympic style scavenger hunt.

Of course the old standbys will be a part of the summer activities as well. Swimming, always a favorite, will again be enjoyed twice a week. Fieldtrips are planned for most Fridays and some in house special guests are scheduled as well.

Some of the sports scheduled for this summer include, volleyball, cycling, football(soccer), athletics, baseball, table tennis, field hockey, basketball, sailing, judo and weightlifting. Not only will campers participate in the activities, but we'll explore the culture of the countries represented.

“One world, one dream” the Olympic slogan reflects the values of harmony, unity, friendship, progress, participation and dreams. In keeping with the vision of people from all over the world joining hand in hand to create a bright future summer campers will have the opportunity to be part of a variety of projects designed to “give back” to the community.

Attached is a tentative list of activities planned for the summer dates and times are subject to change.
